CELEBRATING OUR 70th ANNIVERSARY

Sales@ImperialLinenServices.com

Picture yourself arriving each morning with:

- All your linen laundered, finished, ready for housekeeping
- No more laundry personnel issues or equipment breakdowns
- More time to devote to your core business by eliminating problems
- Upgraded hotel image w/ high quality professional laundry services
- No more constantly increasing cost of supplies and utilities

HOW?

By allowing Imperial to illustrate for you how we have helped other hotels accomplish this by eliminating their-in-house laundry operations. We have done this with numerous hotels—Westins, Marriott, Hiltons, and Sheratons. They are very happy with the results and the savings realized. This is not a unique concept, but is successfully being utilized worldwide in the face of the current challenging economic situations and the need to cut costs in every area of operations.

Imperial provides quality turn key laundry services. Our plant is a large, fully automated, state of the art facility, realizing the economics of scale and then passing the savings on to you. This is very difficult to achieve in small on premise laundry operations due to staff, space, and capital investment requirements.

Each customer's linen is kept completely separate from start to finish. Soiled linens are picked up and clean linens are delivered daily in transport carts furnished by Imperial. We process every guest linen item, food service item completely, as well as uniforms and cleaning items with dependable courteous and professional on time deliveries by Imperial Services Personnel.

Now picture ending each day with laundry problems checked off your list.

Contact us today for a free, no-obligation action plan for your hotel.
